

# **CRStar Insights**

Enhanced Reporting Module Released 08/24/2023

This CRStar Insight will outline the features and usage of several enhanced reports and show changes and additions to the Enhanced Report menu located on the left navigation screen. We strongly encourage users to begin using the new options, as the old options will eventually be removed once the reporting module makeover has been completed.

- The CRStar reporting menu option has been renamed Enhanced Reporting and moved up in the navigation window
- The old Reporting option has been moved to the bottom of navigation window
- A new reporting category has been created called Registry Management Reports

1

### **Enhanced Treatment Distribution**

In addition to the existing treatment by facility, physician, treatment combination and treatment distribution, a treatment by site report has been added.

Create a Population Label	Population Label:	2021 ANALYTIC COLORECTAL CASES	-

#### **Registry Management Reports**

#### Productivity

The Productivity report has been enhanced with new features:

- Users may now select a hospital or hospitals to include from a drop-down menu
- Users may now select a particular abstractor from the drop-down menu or leave blank to select all
- A patient list can now be generated in addition to the productivity report
- Users can now select a graph type: Bar, Column or Pie

#### **Miscellaneous Reports**

## TNM Graph

The TMN graph has been enhanced to display four separate stage graphs:

- Clinical Stage
- Pathological Stage
- Clinical Post Therapy Stage
- Pathological Post Therapy Stage

TNM Graph Days to Treatment			
Create a Population Label	Population Label:	2022 breast cases	-
X Delete Label			
Send Report To: Excel Screen
