Enhancements & Corrections

December 21, 2023

Corrections

- Re-set the Global Change, Mass Delete, and Import Screens to restore functionality
- Provided a correction to the Treatment Distribution so toggling between the radio buttons displays the reports to the screen appropriately
- A correction has been made to the Site Distribution Report to allow the report to run on larger populations

State Specific Updates

- Maryland – The Central Registry has requested an additional edit set to be available, please refer to the CRStar Insight titled, “Submitting Non-Analytic Cases Using the Abbreviated Maryland Metafile” located on the CRStar Resource page for detailed instructions

Metafile Names	
Florida (released 11/29/2023)	FL_v23B
Maryland (11/29/2023) – special request	MD_v23B Abrev
NCDB (12/14/2023)	NCDB_v23B
RCRS (12/14/2023)	RCRS_v23B
