SEER ICD-10-CM 2025 Casefinding Code List

Effective Dates: 10/1/2024 through 09/30/2025

This Insight serves as a reminder to all clients that a new casefinding code list is available on the SEER website. To access the list, please click here: [2025 SEER List](#). For a complete list of all changes necessary in your CRStar account, please contact your state cancer registry for possible changes to their reportable diagnosis codes. Once all changes are determined, open a support ticket and we will be happy to assist you with revising the import configuration screen in CRStar.

If the files obtained for the import are limited to specific diagnosis codes, it is imperative you contact the person/department responsible for creating the merge files to ensure the program logic is updated. This needs to be done prior to creating/uploading the files to CRStar to prevent an oversight.
