Enhancements & Corrections

December 18, 2024

Enhancements

- The copyright on the Survivorship Care Plans has been updated to reflect Health Catalyst.
- The Surgery Approach field now includes "Death Certificate Only" as part of code 9, along with updated help notes.

Corrections

- The Follow-up On Demand patient search has been optimized to reduce result return times and return the patient details when selected.
- An adjustment was made to the TNM Edition field to allow exceptions for certain conditions including the codes of 88 or 99.
- The surgery crosswalk table has been corrected to display the correct surgery descriptions in reports.
- Corrections have been made to the county code tables for SC, MI, and GA.
- Dashboard Settings preferences have been corrected to display and save properly.
